Hello

May I ask one final question, should we expect any difficulty moving from the airport to your facility due to the flooding?

Thank you,
Ksenija

Hi [redacted]

Beyond seeing the plant, some of the topics that we are curious include:

- History of [redacted] and company overview
- Screening or inspecting of tires before they are sent to be processed to crumb rubber
- Differences in tires types and processing methods
- Looking in-depth at the ambient process and see the types of system(s) your facility uses for shredding (granulator, cracker, abrasive disk, etc.)
- Quality assurance / quality control measures
- How the material is stored and prepared for shipping to customers, including customer coverage

As for those who will be attending the tour on Friday we have:

- Chris Carusiello, Environmental Engineer – Industrial Materials Reuse Branch, EPA
- Ksenija Janjic, Environmental Protection Specialist – Industrial Materials Reuse Branch, EPA
- Nicole Villamizar, Environmental Protection Specialist —Industrial Materials Reuse Branch, EPA
- Charlotte Mooney, Associate Division Director—Resource Conservation and Sustainability Division, EPA
- Annette Guiseppi-Elie, Supervisory Physical Scientist – National Exposure Research Laboratory, EPA
- Elizabeth Irvin-Barnwell, Epidemiologist, CDC-ATSDR
- Angela Ragin, Branch Chief—Environmental Epidemiology Branch, CDC-ATSDR

We also wanted to make sure that the recent flooding in [redacted] hasn't affected your family or where you're living! We just heard on the news about all the flooding in the [redacted] area.

Best,
Chris

Hi Chris,

If you have no other plans in [REDACTED] I would recommend to stay at the Marriott right at the airport.

Look forward to your visit.

Best regards
Henrik

Hi [REDACTED]

We are really looking forward to being able to see the facility in a few weeks. We are making plans for our stay, and I was wondering if you could recommend any hotels for accommodation that are either close to [REDACTED] Airport, or somewhere in between. If nothing sticks out we could always just google something around the area.

Thanks again,
Chris Carusiello
